

MADISON COLLEGE, ANTRIM, O.

The annual commencement of the Madison College, will take place on Friday the 27th inst., on that day there will be a public exhibition, by the Students, which will be both interesting and instructing. The examination of the Students will take place on the day previous at 9 o'clock, A. M. On the evening of the examination, the Literary Society will be addressed by Mr. Samuel Sterret, A. B.

The present professors contemplating to leave the institution at the close of the present Session, the Board of Trustees are happy to have it in their power to state to the Public, that they have procured the services of Mr. Samuel Sterret, A. B., as president and professor of Mathematics, and the sciences generally, and Mr. Wm. Bogal, as professor of Languages. The Board would here state that from the high character these gentlemen sustain as teachers, in their several departments, and from their high standing as gentlemen, they have every reason to believe, that this institution is about to arrive to a much higher degree of eminence as a literary institution, than it has heretofore attained. These gentlemen expect to remain as permanent professors in this institution.

The winter session will commence on the the last Monday of October, 1844.— Mr. Sterret has procured a considerable portion of chemical apparatus that those Students who may be engaged in the study of the science may have the advantages of practical experiments.

DAVID JOHNSON, Sec'y.

Sept. 13, 1844.
